

# research project

## examining services for young people

Are you:

- Aged 18 to 25?
- Ever used a homelessness or mental health service in the Eastern suburbs?
- Then we would love to hear from you!

A new research project, conducted by each and Eastern Health, aims to find out if:

- Services are meeting all your needs
- What factors increase the risk of homelessness for young people
- How services may be more helpful for young people

The researcher, Dr Emma Black, would love to meet with you to hear about your experiences. Your public transport costs will be covered, and a \$20 Coles-Myer voucher will be given in appreciation of your valuable time.

**Contact** Emma Black for information
