

soundscape (s.cape)

Soundscape (S.cape) is a creative and therapeutic music program.

S.cape is for young people who might be finding language limiting or who have experienced misunderstanding, conflict, or alienation in their everyday life.

S.cape promotes individual and group expression that is unique, boundless, non-judgmental, and takes in all aspects of the musical experience. S.cape will equip participants with skills that they can utilize throughout the course of their lives, like musicianship, creative thinking, coping skills and emotional harnessing.

Facilitated by Mutch Katsonga (S.cape Co-Ordinator/each Youth Counsellor/ Outreach Worker), Brendan Plummer (each Volunteer/Guitarist), Grant Bowker (each Volunteer, Sound Technician).
